PROFILE

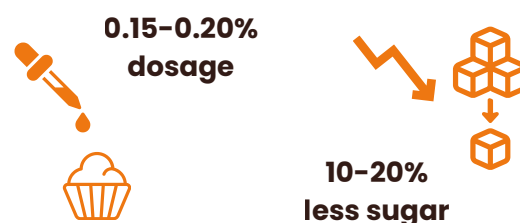

This must-have for cooking and pastry-making will add an **impression of sweetness** and **richness** to your confections!

It makes everything **taste even better!**

TEMPORAL DOMINANCE OF SENSATIONS

HOW DOES IT WORK?

Our internal tastings gave satisfactory results on sugar reduction within 10-20% raw sugar content @ 0.15-0.20% ATS2001. We also noted that a higher initial sugar level gave better result due to sweetness saturation.
